## What is this product?

### Type

- This product is a class of share of the Sub-Fund and is denominated in GBP. The Fund Group SICAV is an open ended investment company with a variable capital and qualifies as an Undertaking for Collective Investment in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.
- As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

### Objectives

#### Investment objective:

- The investment objective is to provide long term capital appreciation by investing into actively selected equities and regulated UCITS and other UCITS eligible UCIs that invest across a range of asset classes globally.

#### Investment policy:

- The Sub-Fund will mainly invest in equities and shares or units issued by other UCITS and/or UCITS compliant UCIs (including Exchange Traded Funds (ETFs)). Issuers of the underlying investments may be located in different countries, including emerging markets.
- The weight of each type of asset in the portfolio will depend on the prevailing market opportunities and foreseen evolution of these targeted markets, nevertheless: - the maximum exposure of the Sub-Fund in UCITS and/or UCITS compliant UCIs shall not exceed 40% of the net asset value of the Sub-Fund;  
- the Sub-Fund's exposure to equities is limited to 55% of the net asset value of the Sub-Fund;
- The Sub-Fund will also invest in debt instruments, money market instruments and term deposits on an ancillary basis.
- The Sub-Fund may use financial derivative instruments for currency hedging purposes only, such as currency SWAP, and will not invest in ABS/MBS, Contingent Convertible Bonds ("Cocos") or in defaulted securities and will not enter into any efficient portfolio technique transaction.
- The Sub-Fund may lastly be substantially disinvested depending on prevailing market conditions. When such situation arises, the Sub-Fund will invest the cash available in government bonds to comply with prevailing diversification rules for UCITS.
- The Sub-Fund is actively managed in reference to the benchmark EuroStoxx 50 and Bloomberg Barclays Euro-Aggregate Treasury ("the Benchmark"). The investment manager will generally invest in the securities universe to which the benchmark refers and may deviate to a significant extent. The share class' performance can be compared to this Benchmark.

- The Sub-Fund's underlying assets does not take into account the EU criteria for environmentally sustainable economic activities in the meaning of the Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020.
- Given the above investment objective and policy and the risk and reward profile of the product, the recommended holding period is 4 years.

**Redemption and Dealing:** The shares of the Sub-Fund may be redeemed on demand on a daily basis before 3 p.m. Luxembourg time on the first business day preceding the valuation day.

**Distribution Policy:** This product does not pay dividends. Income generated by the Sub-Fund is reinvested and included in the value of your share.

### Intended Investor

The Sub-Fund is suitable for investors who seek long-term capital appreciation and who are comfortable with and understand the risks associated with investing in a variety of equity and investment funds (UCITS and other UCIs) and broadly speaking of financial markets of moderate to high risk. Investors must also be comfortable with and understand that while their monies will be invested in liquid instruments, they will need to trade-off temporary losses in return for capital appreciation. Note, there is no minimal holding period required of the investors for the sake of maximum liquidity, transparency and efficiency. The share class C is dedicated to retail investors and is not suitable for investors who plan to withdraw their money within 4 years.
